
Sea Lion
- External ear flaps "pinnae"
- Skin-covered, elongated fore flippers
- Noisy, bark!
- Congregate in gregarious group
- Flippers can rotate allowing them to "walk" on land
Seal
- No ear flaps or "pinnae"
- Furry, stubby foreflippers
- Meow, snort or soft grunts
- Less social and spend more time in the water
- Flippers cannot be used for walking; they scoot on belly on land
